EXPERIENCE

Vallourec | Application Development & Data Science Intern

May - September 2025 & February - August 2026 | France

- Designed and developed end-to-end a pipe connector installation verification tool for industrial sites, along with internal web dashboards to visualize the related data.
- Implemented user feedback, managed version control, and deployed updates
- Stack: Python, Databricks, streamlit

Canal+ International | Web Development Intern (Backend)

June - August 2023 | Paris, France

- Developed REST APIs using Django REST Framework and Swagger
- Worked within an agile SCRUM team, using Git for version control
- Stack: Python, Django REST, API development

EDUCATION

ESILV | Léonard de Vinci Engineering School

2021 - 2026 | Paris La Défense, France

General Engineering Degree - Major in Creative Technology

Hanyang University - Seoul, South Korea

August - December 2023

Exchange semester in Electrical Engineering

Lycée Alexandre Dumas - Saint-Cloud, France

June 2020

High School Diploma - honors

TECHNICAL SKILLS

Programming Languages:

Python, C# , C++, SQL, Verilog (FPGA), HTML, CSS, JavaScript

Software: SolidWorks, Fusion 360, KiCad

Tools & Practices:

SCRUM, Git, REST API, Databricks, Machine Learning, Deep Learning

CERTIFICATIONS

Design Thinker

Dthinking academy
2022

Amateur Radio

ANFR
2025

INTERESTS

Karate Black belt

LANGUAGES

- French: Native
- English: C1
- Spanish: B1

SOFT SKILLS

Organization
Critical Thinking
Teamwork
Adaptability
Curiosity
Creativity

PROFESSIONAL SUMMARY

Creative Technology engineer from ESILV, with an Electrical Engineering exchange at Hanyang University (Seoul). Hands-on experience spanning embedded systems, bio-electronics, deep learning, and physical fabrication, from building an EEG-based brain-computer interface to designing a bioprinting head.

Comfortable moving between hardware and software, and between lab prototypes and production deployments. Proficient in Python, C++, C#, and JavaScript.
